### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is in response to the amendment filed 8/31/2007.
2. Claims 1-5 and 11-15 remain pending and have been considered below.

#### ***Response to Amendment***

3. Per Applicants' request, claims 1-5 have been amended; claims 6-10 have been canceled; claims 11-15 are new.
4. The objection to the drawings is withdrawn in view of applicants' amendment.
5. The rejection to claims 6-10 under 35 USC § 101 is withdrawn in view of applicants' amendment to cancel these claims.
6. The rejection to claims 1-10 under 35 USC § 112, second paragraph is withdrawn in view of applicants' amendment to clarify the identified discrepancy.

#### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1-5 and 11-15 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Allowable Subject Matter***

8. Claims 11-15 are allowed

Art Unit: 2191

9. Claims 2-3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Claim Rejections - 35 USC § 102***

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

11. Claims 1 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Scheifler et al. (United States Patent No.: US 6,901,518 B1).

As per claim 1:

Scheifler discloses:

- authenticating, by a first certificate, said downloaded software using a first integrated software in said terminal (see at least col. 2, lines 64-67 "***A system consistent with the present invention enables a program in a distributed system to determine whether downloaded code is trustworthy before using the downloaded code to communicated with other programs or services in***

Art Unit: 2191

***the distributed system***"; also see **FIG. 3** – *client verifies if the code is certified (trusted code)*); and

- authenticating said first integrated software using an authentication software module associated with the said downloaded software during execution of said downloaded software, wherein said first integrated software is authenticated using a second certificate (see at least FIG. 3 "***Client uses P2 to authenticate service***" – *P2 is verified code*).

As per claim 5:

Scheifler further discloses:

- wherein content stored in the second part of loadable memory is downloaded (***It is inherent in order to download the trustworthy code into the client computer***).

### ***Claim Rejections - 35 USC § 103***

12. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

13. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Scheifler et al. (United States Patent No.: US 6,901,518 B1).

Art Unit: 2191

As per claim 4:

Scheifler does not explicitly disclose:

- wherein the successive authentications take place on initialization.

However, it would have been obvious to one having an ordinary skill in the art at the time the invention was made to modify Scheifler's approach to authenticate at the initialization phase. One would have been motivated to modify to authenticate at the initialization phase to ensure that the downloaded code are trustworthy before using it to communicate with other programs or services.

***Conclusion***

14. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
